

C
Maximize water pick-up and reduce maintenance with the Dura-Track™ squeegee with SmartRelease™

D
Count on durable, steel frame and Grip-n-Go™ corner rollers to withstand the toughest environments.

E
Quickly, easily sanitize solution and recovery tanks with easy-access Hygenic® tanks.

F
Reduce environmental impact with ec-H2O™ or FaST® technologies.

KEY AVAILABLE FEATURES

Increase productivity up to 3 hours

Ideal for more porous concrete, ES® filters and recycles solution, using less water and reducing waste.

Widen the cleaning path from 40 in/1020 mm up to 54 in/1370 mm

Achieve superior edge-cleaning and maximize productivity with an optional side brush.

Improve cleaning results

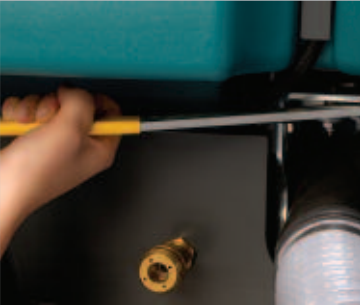

Spot clean hard-to-reach areas with the 15 ft/5 m spray hose.

Protect your T20 – and your facility

Shield squeegee from backing into structures or hooking onto obstacles with rear and side steel guards.

Tennant Company Environmental Stewardship

ec-H2O and FaST technologies are NFSI (National Floor Safety Institute) Certified. NFSI certification ensures a product has passed a 2-phase testing process, proving the floor product helps to reduce potential for slip-and-fall accidents.

ec-H2O and FaST technologies are registered by NSF International. NSF International is an independent, not-for-profit organization that ensures formulation and labels on these products meet appropriate food safety regulations.

ec-H2O and FaST technologies may contribute to LEED or LEED-EBOM (Existing Building: Operations & Maintenance) points, provided other appropriate criteria are met. For more information on obtaining LEED points, please contact your sales rep or refer to the USGBC website at: www.usgbc.org.

FaST is a Green Seal (GS-37) Certified Detergent. Green Seal evaluates and certifies cleaning products based on criteria such as the toxicity of the product, skin and eye irritation, skin sensitization, combustibility, toxicity to aquatic life, and packaging.
