

Hakansson Rapid Band Saw Blades !

Rapid-CT10

The high performance Håkansson **Rapid-CT10** Carbide tipped band saw blade for different materials as high-speed steels, tool steels and stainless steels.

The Hakansson **Rapid – CT10** Carbide tipped Bandsaw blade for cutting tool steels, high-speed steels and stainless steels. The unique tooth geometry results in better chip separation, low noise and high cutting rates. For faster cutting and excellent finish.

Rapid-CT20

The Håkansson **Rapid-CT20** Carbide tipped band saw blade for Chromium-Nickel steels, Nickel based alloys and Titanium alloys.

The Hakansson **Rapid – CT20** Carbide tipped Bandsaw blade is suitable to cut long chipping materials and are the best solution for hard and tough materials.

Rapid-CT30

The Håkansson **Rapid-CT30** Carbide tipped band saw blade for Aluminium castings, plates and bars.

The Hakansson **Rapid – CT30** Carbide tipped Bandsaw blade is developed for cutting non-ferrous materials and especially Aluminium. The fatigue resistant alloyed steel backing withstands the severe mechanical stress due to the high cutting speeds and feeds and ensures high productivity and long blade life.

Rapid-CT40

The Håkansson **Rapid-CT40** Carbide tipped band saw blade for induction hardened chrome steels and hardened materials.

The Hakansson **Rapid – CT40** Carbide tipped Bandsaw blade has a special design for cutting hardened and tempered or induction hardened materials with hardness between 50-60 HRc.

Tough...Cut faster...Last Longer!
