BEL-RAY® NO-TOX® SEAMER OIL D

Bel-Ray No-Tox Seamer Oil D is a high performance lubricant with exceptional anti-wear and demulsibility properties. It is uniquely designed for components subject to moisture ingress and provides excellent water separation ability to ease filtration in circulatory systems, can seaming equipment and similar applications found in "clean" industries and specifically in beverage and food processing plants.

Applications

- ♦ Angelus can seamers
- Circulating oil systems subject to moisture ingress requiring effective filtration
- ♦ Anti-friction bearings
- ♦ Enclosed gear boxes

Features and Benefits

♦	NSF H1 registered	Use where incidental food contact may occur.
•	Bacteriological protection	Effectively inhibits the growth of certain bacteria, yeast and mold in the lubricant.
•	Outstanding anti-wear performance	Excellent equipment protection while maintaining superior film strength in extreme application conditions.
•	Excellent rust and oxidation protection	Provides extended component service.
•	High demusibility	Provides excellent water separability thereby eases filtration and provides extended drain intervals.

General Description

Bel-Ray No-Tox Seamer Oil D is formulated for exceptional anti-wear and water demulsibility performance. This performance oil lubricates components with its unique ability to lower filter pressures, especially in circulatory systems, providing extended drain intervals, helping to avoid costly component change-outs and frequent equipment overhaul.

Bel-Ray No-Tox Seamer Oil D is available in three (3) grades to fit most applications. It is formulated with the highest quality USP white mineral oils and food grade additives and meets NSF H1 and FDA requirements for materials that may have incidental contact with food as defined under Title 21 CFR, 178.3570. It is Kosher and Pareve approved.

Product No. 64221, 64222, 64223
