

Load Cell

FEATURES

- Suitable for force measurement applications
- Simple installation
- The cylindric shape makes it easy to replace an axis
- Resistant against harsh environment
- Could be adapted for other dimensions and capacities
- Atex approved for hazardous area

DESCRIPTION

The KOSD-40 load cell has a rugged design for harsh environment and is suitable for force measurement and overload protection. The sensing element consists of three sections, the two outer

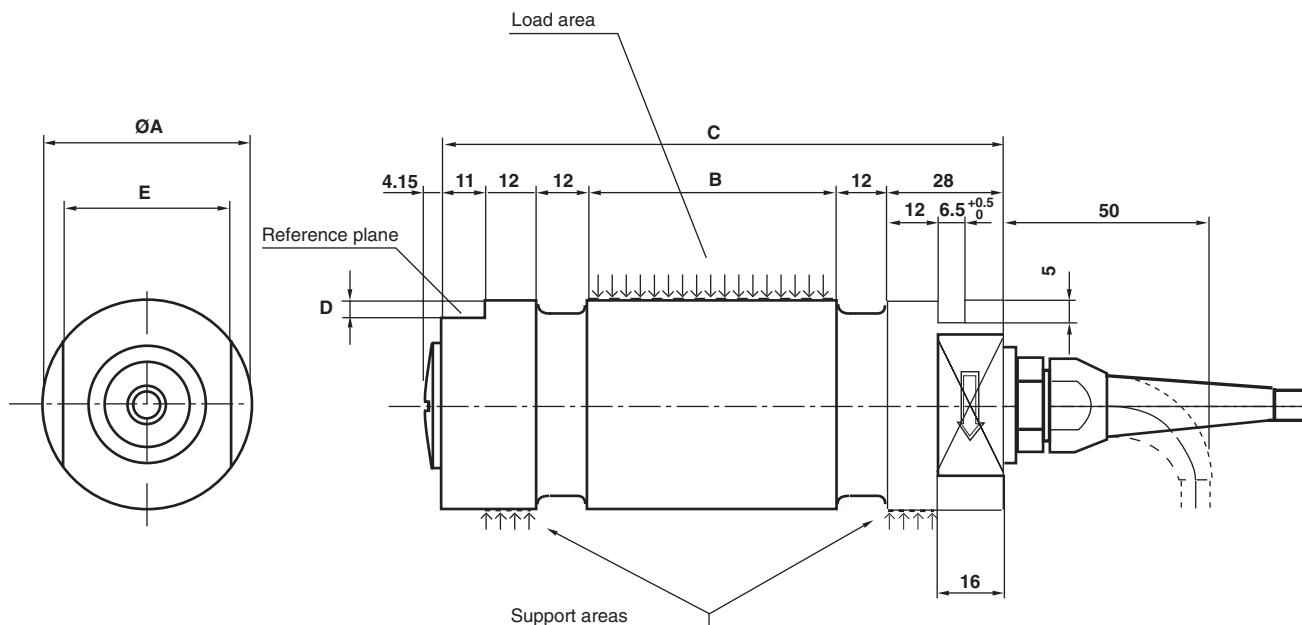

sections constitute supports and the middle section is the load sensing part.

The KOSD-40 can be delivered in a module for load and level monitoring in storage tanks, then called KOM-1.

APPLICATIONS

- Offshore
- Cranes
- Tension measurement
- Level monitoring
