

C4T* Live Centers

Standard, Tracer and Long Point

The first and only live center with permanent bearing protection

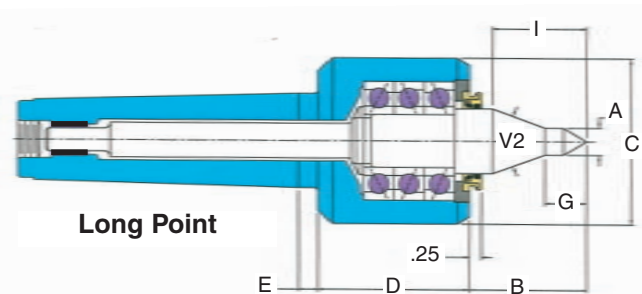

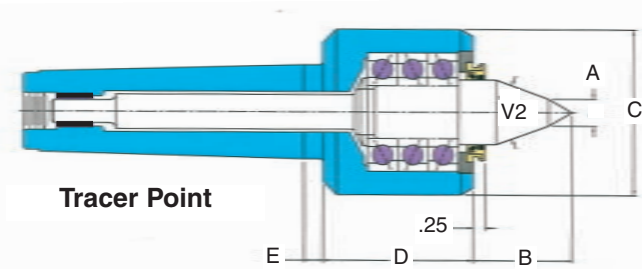

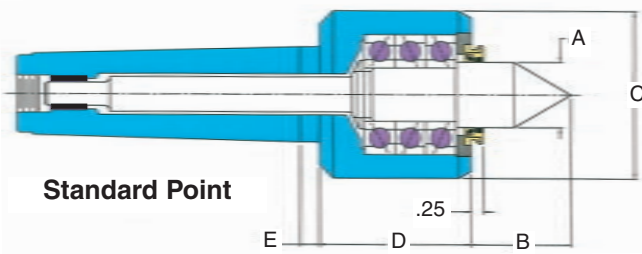

- Accuracy guaranteed to $\pm .00004$
- Ideal for applications which use high-pressure coolant
- Inpro/Seal bronze non-contacting bearing isolator seal turns freely, runs cooler, and will never wear out
- Point configuration allows for tool clearance
- Riten full service and repair

Contaminants are captured in the outer labyrinth path and expelled through a port.

Inner section of labyrinth seals in bearing lubricant.
