

FD1020

The HD 720p 1M FD1020 ceiling dome is the ideal surveillance camera for indoor retail environments such as boutiques, gas stations or elevators. The compact (100 mm diameter), ultra-lightweight (180g) design is equipped with many features including 2D and 3D Digital Noise Reduction, an adjustable Sense-Up and shutter speed allowing more light to be allowed into a shot, enhancing picture quality during periods of low light. It is ideal choice for all indoor retail environments requiring excellent image quality during day and night.

Compact size

The compact size of the FD1020 ensures that it blends into a location's existing interior design to hide in plain sight. It is ideal for drop ceilings commonly seen in retail environments.

Easy to install

The easy to install model can be installed in four simple steps take off the case, connect the wires, screw it into the wall/ceiling and then put the case back on.

HD720p resolution

Equipped with HD720p resolution guarantees high picture quality ensuring that anything users wish to view can be seen clearly.

Indoor IR model (5 meters)

With an IR range of up to 5 meters, an excellent solution is provided for small retail environments. Users can rest assured that the camera will be able to record in excellent quality, even during the night.

Day and night functionality

The camera is equipped with Digital Noise Reduction (DNR) and a built-in ICR (IR-cut filter removable) to produce excellent imaging quality even under challenging light conditions.
